CS-3320 / CS-3321

Coin sorter

The CS-3320/3321 coin counting and sorting solutions accelerate coin processing increasing accuracy and efficiency. Specifically designed to address the needs of small and medium-sized businesses where coins are handled, the CS-3320 and 3321 significantly reduce the time required by your staff to count and sort coin.

CS-3320

CS-3321

By automating coin processing, you can release employees to focus on revenue generating and customer facing activities and reduce errors while simultaneously increasing their job satisfaction.

Coin sorting today requires higher reliability, as the coin in circulation is constantly increasing and at the same time, more counterfeit coins than ever are found.

As a result, there is an increasing demand from banks and other cash handling organisations for more secure and exact coin sorting.

The CS-3320/3321 can count and sort up to nine coin denominations, automatically rejecting counterfeit and foreign coin. The CS-3320 without escrow and CS-3321 with escrow, are the ideal coin sorters when small and medium volumes of coin need to be sorted.

Common features CS-3320 and CS-3321	
Recognition	9 coin values
Drawers	9 separate pockets +1 reject box
